Chapter 1

Introduction

When I start my PhD at ETHZ, artificial intelligence become more and more popular. Then I want to build my own AI program. I want to share my idea with other people, and hope the readers can give their useful comment.

Xing Wang

Chapter 2

Idea

This chapter will provide the idea of XAI.

2.1 structure

We will start with the .

python

Appendix A

Dummy Appendix

You can defer lengthy calculations that would otherwise only interrupt the flow of your thesis to an appendix.
